

OUR SACRED ENERGY PRAYER

Creator, we know from experience that your sacred energy will work only if it is shared.

What we give out is what we receive.

And we intend to give out light, love, peace, joy, happiness, forgiveness and passion.

What we give out is what we receive.

Help us Creator, help us to remember that we are of one mind with yourself and all relatives.

We seek to remind our two-legged relatives of the truth of their own light, their own beauty and their own perfection. And also to remind them not to be distracted by the illusionary material world.

We seek to clear their vision so that they may see themselves as you created them - in light, love, peace, joy, happiness and forgiveness.

Thank you Creator, thank you for the beauty, perfection, purity and oneness of your creation.

For this we are grateful
